

# **KINE 008: INTRODUCTION TO KINESIOLOGY**

Date Submitted: Wed. 14 Nov 2018 20:12:52 GMT

#### Originator

cdoussett

#### Justification / Rationale

Addition of PTA 008 as a cross listed course.

### **Effective Term**

Fall 2019

#### **Credit Status**

Credit - Degree Applicable

#### Subject

KINE - Kinesiology

#### **Course Number**

800

#### **Full Course Title**

Introduction to Kinesiology

#### **Short Title**

INTRO TO KINESIOLOGY

#### **Discipline**

## **Disciplines List**

Physical Therapy Assisting

Kinesiology

## Modality

Face-to-Face

## **Catalog Description**

This course is an introduction to the interdisciplinary approach to the study of human movement, including knowledge derived from performing physical activity, studying historical, ethical and philosophical foundations of physical activity, and professional practice centered in physical activity. It includes an analysis of the importance of physical activity in daily life, the relationship between physical activity and the discipline of Kinesiology, and the general effects of physical activity experiences. The course surveys the general knowledge base of the discipline as reflected in the major sub-disciplines and reviews selected in each, showing how they contribute to our understanding of the nature and importance of physical activity. In addition, the course introduces students to the general characteristics of the professions, to specific types of physical activity professions typically pursued by Kinesiology students and assists them in making some early career decisions. (Cross-listed with PTA 008)

## **Schedule Description**

This course is an introduction to the interdisciplinary approach to the study of human movement. An overview of the importance of the sub-disciplines in kinesiology will be discussed along with career opportunities in the areas of teaching, coaching, allied health and fitness professions.

## **Class Size Maximum**

40

**Entrance Skills** 

Comprehend and summarize readings

# **Prerequisite Course Objectives**

ENG 061-Demonstrate the ability to read and respond in writing beyond the literal interpretation of the text.

# **Entrance Skills**

Generate, develop, and organize ideas in writing.

# **Prerequisite Course Objectives**

ENG 061-Demonstrate the ability to read and respond in writing beyond the literal interpretation of the text.

# **Entrance Skills**

Critical thinking skills.

## **Prerequisite Course Objectives**

ENG 061-Demonstrate the ability to think critically and express ideas using various patterns of development.

#### **Course Content**

- 1. Basic concepts of kinesiology
- 2. Discovering the field of physical activity
- 3. The spheres of physical activity experiences, and subjective experiences in physical activity
- 4. Academic planning
- 5. Historical, ethical and philosophical foundations of kinesiology
- 6. Overview of basic movement forms of sport, dance and exercise with a focus on the subdisciplines within Kinesiology
- 7. Sociology of physical activity
- 8. Introduction to the sub-disciplines: Motor learning/control, motor development, biomechanics, exercise physiology, social psychological foundations, and sport nutrition
- 9. Exploration of pathways and career opportunities: Allied Health, sport, fitness, teaching and coaching

## **Course Objectives**

	Objectives
Objective 1	Gain an appreciation for and insights into the importance of physical activity in daily life and the implications of this for the discipline of kinesiology.
Objective 2	Understand the rationale for a discipline of kinesiology, how it is structured, and the types of knowledge studied by its scholars, as well as the implications of this and other types of knowledge for professional practice.
Objective 3	Understand the nature and demands of professional occupations, the career options available to students graduating from departments of kinesiolgy, and the qualifications associated with each option.
Objective 4	Identify the basic concepts of kinesiology.
Objective 5	Describe the historical, ethical and philosophical foundations of Kinesiology.
Objective 6	Identify the relationship between performance in the movement forms of sport, dance, and exercise and the conceptual foundations of the sub-disciplines.
Objective 7	Identify the pathways and requirements for career opportunities.
Objective 8	Identify the fundamental concepts of basic movements.

# **Student Learning Outcomes**

	Upon satisfactory completion of this course, students will be able to:
Outcome 1	Apply scientific principles and foundations in the field of Kinesiology.
Outcome 2	Evaluate the role of sub disciplines in the field of Kinesiology including anatomy, physiology, biomechanics, personal fitness, and motor behavior.
Outcome 3	Analyze various opportunities for employment and advancement in the field of Kinesiology.

## Methods of Instruction

Method	Please provide a description or examples of how each instructional method will be used in this course.
Collaborative/Team	Students are assigned a group to lead a physical education course and develop a lesson plan.
Participation	Students are expected to read course materials before class and participate in classroom activities and discussions on a weekly basis.
Lecture	Lecture is broken up into 20 to 30 minute segments with interactive activities embedded to create an active learning environment.
Discussion	Students get in small groups at the beginning of class to familiarize themselves with learning material and then share with the larger group.

Demonstration, Repetition/Practice

Students are required to practice skills learned and demonstrate those skills to the class. Practice activities and demonstrations are embedded into lecture components.

#### **Methods of Evaluation**

Method	Please provide a description or examples of how each evaluation method will be used in this course.	Type of Assignment
Written homework	Homework assignments to emphasize course topics including reflections on reading materials collected weekly.	In and Out of Class
Oral and practical examination	Students describe their lesson plan to instructor and present their plan to the class as an end of course practicum.	In Class Only
True/false/multiple choice examinations	Exams and quizzes subjective and objective to assess student learning of the basic concepts of Kinesiology. (Total of 100 questions for midterm and final plus quizzes).	In Class Only
Self/peer assessment and portfolio evaluation	Develop a personal portfolio that describes the pathways and requirements for their selected career.	In and Out of Class
Presentations/student demonstration observations	Observation reports of different careers are presented to peers and instructor. Includes a minimum of 1 page report as well as 10 minute presentation.	In and Out of Class

#### **Assignments**

## **Other In-class Assignments**

- 1. Three tests covering textbook and lectures.
- 2. Oral report and demonstration.
- 3. Fitness collection and analysis.
- 4. Reading Assignments, Evaluation and Discussions.

# Other Out-of-class Assignments

- 1. <u>Preparation of a Career Statement:</u> If you are interested in the Fitness Specialist certificate, or Bachelor's of Science degree for your anticipated career, describe a future career you may want to pursue. Please list the appropriate education, certificates, and licenses you may need to obtain for this career path. Identify the colleges and institutions to which you will apply for your advanced degree(s). Also explain examinations, clinical hours and additional opportunities that may be available for this career.
- 2. <u>Research Assignment:</u> You will be assigned a topic relevant to the field of kinesiology. You will be required to research using the College of the Desert's library search engine for a reliable journal, magazine that is recognized by the Kinesiology department. You will be asked to develop an introduction page, college level critical questions and responses to this topic, list of references and provide extensive research.
- 3. <u>Pedagogy Assignment:</u> After studying the chapters on pedagogy, biomechanics and physiology of physical activity you will be asked to develop a proper lesson plan for both a physical activity and lecture class.
- 4. Weight Management Assignment: Following the principles of research methods in physical activity, you will collect information, analyze it's results and how they attribute to enhanced physical activity, and wellness.
- Interview: After studying the chapters on careers in therapeutic exercise, teaching professions, health and wellness, coaching, and sport management, you will be asked to conduct an interview with a professional in one of these fields and present your information orally to the class.
- 6. <u>Professional portfolio:</u> Following the text's chapters on motor behavior, biomechanics, physiology, and professional preparation, create specific exercise prescription, liability forms, and pertinent advice for students and clients.

## **Grade Methods**

Letter Grade Only

#### MIS Course Data

## **CIP Code**

31.0505 - Kinesiology and Exercise Science.
