ADVANCED TRANSPORTATION TECHNOLOGIES

The Advanced Transportation Technologies degree program offers students the opportunity to learn the academic and occupational skills needed by future entry-level technicians in the transportation industry.

The curriculum was developed with industry guidance and prepares students with foundation courses, and then focuses on the new electronic technologies used in light, medium and heavy-duty vehicles. The program has special emphasis on the hybrid and alternate fuel vehicles being introduced by the major manufacturers. The degree program’s emphasis is on engine performance and emission systems, vehicle computer systems, electronic controls and vehicle system diagnostics that are used in both conventional and alternate fueled vehicles. In addition to the degree option, the advanced transportation technology certificate programs are designed to be as flexible as possible in offering students and working technicians the opportunity to gain the needed knowledge and skills with a short term commitment.

As the students progress through the program, they will be exposed to other aspects of the transportation industry that include personal planning, development of individual and team working skills, development of advanced technical issues. For more information please call (760) 776-7390.

AUTOMOTIVE TECHNOLOGY

Automotive Technology is the study of automotive systems as they relate to the current generation of computer controlled vehicles. Career paths in this discipline include automotive service technician, automotive service consultants, automotive parts sales people, vehicles modifiers in the alternate fuels and fuel cells. Even students who choose not to major in automotive technology find that course work in the field can improve their ability to solve complex problems, improve diagnostic skills and research complex problems. College of the Desert's automotive curriculum includes course offerings that provide a general overview of the discipline as well as specific courses in steering, suspension, braking systems, both automatic and manual transmission, air conditioning, electrical systems, engine performance and emission control systems. The College also offers certificates of achievement for student who specialize in the areas. Students earning the certificates of achievement in the various specialty areas may choose to continue towards an associate's degree or go directly to entry-level jobs in that aspect of the automotive service industry. Past recipients of COD automotive certificates have obtained positions as service technicians, service advisors, heavy-duty technicians, alternate fuels technicians and alternate fuel system up fitters. For more information please call (760) 776-7390.

NATEF Certification

The Automotive curriculum is aligned with the standards of The National Automotive Technicians Education Foundation (NATEF). The Automotive and Advanced Transportation programs are NATEF certified. Students are recommended to consult with the program advisor for requirements for Automotive Service Excellence (ASE) certification.

Courses of Instruction

ADVANCED OFFICER TRAINING (AOT)

AOT-077A  Interview & Interrogation Course – Basic  (formerly AOT-077)  Units: 1½
This course will provide the student with the fundamentals and techniques for properly interviewing victims, witnesses, and suspects in a field setting. Methods for preparing for an interview, establishing a rapport with people, and interview strategies will be discussed. Additionally, methods for using a tape recorder and techniques for manually recording an interview, along with dealing with different personalities and ethnic groups will be covered. This class is POST (Peace Officer Standards & Training) Certified and will be taught with the Riverside Sheriff Department’s POST Certification. Total of 27 hours as required by POST Certification.
Prerequisite: BPOT-063 or equivalent and meets all POST and Riverside Sheriff Department requirements.
Lecture Hours: 27  Lab Hours: 0  Repeatable: No  Grading: Pass/No Pass
Transfer Status: None  Degree Applicable: AA/AS
COD GE: None  CSU GE: None  IGETC: None

AOT-078A  Interview & Interrogation Course – Advanced  (formerly AOT-078)  Units: 2½
This POST certified course will provide advanced interview and interrogation techniques for experienced law enforcement personnel assigned to patrol or investigations and others who conduct criminal interviews and interrogations. This course will further refine the skills and techniques required to properly obtain statements, incriminating statements, admissions, and confessions. This class is POST (State of California, Commission on Peace Officer Standards & Training) Certified and will be taught with the Riverside Sheriff Department’s POST Certification. Total of 40 hours as required by POST Certification.
Prerequisite: AOT-077A

AUTOMOTIVE TECHNOLOGY (AUTO)

AUTO-040C  CNG/LPG Diagnosis & Repair  (formerly AUTO-040B)  Units: 7
This course provides classroom lecture/discussion and hands-on training on CNG/LPG diagnosis and repair. The course is designed to introduce the service technician to safety diagnostic and repair practices and procedures unique to gaseous fuel vehicles. This course combines AUTO-040A and AUTO-040B.
Lecture Hours: 90  Lab Hours: 108  Repeatable: No  Grading: Letter Grade
Transfer Status: CSU  Degree Applicable: AA/AS
COD GE: None  CSU GE: None  IGETC: None

AUTO-043A  Hybrid, Fuel-Cell & Electric Technology  Units: 3
This course provides an introduction to hybrid electric drives that are combined with either an internal combustion engine or fuel cell. Hydrogen fuel cell operation, basic maintenance and applications for vehicle use are covered.
Prerequisite: AUTO-010
Lecture Hours: 36  Lab Hours: 54  Repeatable: No  Grading: Letter Grade
Transfer Status: CSU  Degree Applicable: AA/AS
COD GE: None  CSU GE: None  IGETC: None

AUTO-054C  Basic & Advanced Clean Air Car Course  (formerly AUTO-054A)  Units: 7
This course provides the student with the basic and advanced training to meet the requirements of the Bureau of Automotive Repair for a SMOG Technician. The course includes the Basic Clean Air Car Course material in addition to the OBD II Update course, the prior update courses, 8 Hour Dynamometer Transition course, and 20 Hour Advanced Diagnostic update course. This course combines AUTO-054A and AUTO-054B.

FIRE TECHNOLOGY (FIRE)

FIRE-063A  Basic Fire Fighter I Academy  Units: 11
(formerly FIRE-063)

This course provides individuals with the knowledge and skills to safely perform, under minimal supervision, essential and advanced fire ground tasks. These shall include basic rescue operations, auto extrication, basic fire suppression, prevention and investigation, a basic knowledge of the “Incident Command System” and an introduction to the potential dangers of hazardous materials. In addition, students will learn to use, inspect and maintain various types of firefighting and rescue equipment. Completion of this course satisfies the manipulative and academic training requirements as established by the State Fire Marshal to become certified as a Fire Fighter I.

Prerequisite: EMT-084 and FIRE-001
Advisory: ENG-051 and RDG-051

Limitation on Enrollment: Successful completion within one year of a Certified Physical Ability Test (CPAT). Safety gear and SCBA will be required. FIT testing is mandatory.

NURSING (N)

N-001  Basic Concepts in Nursing Practice  Units: 8

This course introduces students to the organizing framework of the program and to the nursing process. The focus is on optimum wellness. Basic care concepts and skills common to promoting, maintaining or restoring health are presented in the classroom and practiced in college and clinical laboratories. Care is focused on the needs of medical, surgical and geriatric clients. This course requires a materials fee of $80.00 to cover equipment used by the student in the skills laboratory.

Prerequisite: BI-014, BI-015 and acceptance to the program

N-002  Concepts of Nursing Practice for Commonly Occurring Alterations in Health  Units: 9

This course builds on concepts introduced in Nursing 1 with emphasis on commonly occurring alterations in health in the medical, surgical, and pediatric client. Students receive lectures on campus and gain clinical skills in both the campus laboratory and in a local hospital. This course requires a materials fee of $47.00 to cover equipment used by the student in the skills laboratory.

Prerequisite: BI-014, BI-015 and acceptance to the program

Lecture Hours: 72  Lab Hours: 216  Repeatable: No  Grading: Letter Grade

### Courses of Instruction

**N-055  Transition to Registered Nurse**

*(formerly HS-055)*

This course focuses on preparing the student for assuming the role of the registered nurse, as covered in the first year of the associate degree program. Skills lab and clinical practice focus on the application of therapeutic nursing interventions and critical thinking behaviors in select client populations. The course facilitates the transition of LVN and approved challenge/advanced placement students into the second year of the RN program. This course requires a material fee of $78.00 to cover equipment used by the student in the skills laboratory.

**Prerequisite:** BI-013, BI-014, BI-015, CH-004, ENG-001A, MATH-054, and approval of advanced placement by the Nursing Department

**Corequisite:** Licensure as a Vocational Nurse in the state of California.
