

**GUIDED PATHWAYS TASKFORCE
MINUTES**

Thursday | September 6, 2018

2:15 – 4:15 PM

President's Board Room

Voting Members Present: Tiffany Abeytia, Veronica Daut, Claudia Derum, Oscar Espinoza-Parra, Gary Ginther, Donna Greene, Ellen Hardy, Kelly Hall, Aries Jaramillo, Angel Meraz, Amanda Phillips, Andie Aldana, Sheryl O'Donnell

Non-Voting Members Present, Carl Farmer, Academic Senate President

Support: Lynda Scott

Dr. Hall announced that she would be assuming the role of co-chair for the instructional deans due to Dean Karen Tabor's announcement of retirement plans. Dean Leslie Young will continue to be a member of the group.

1. Flex Presentation – Dr. Espinoza-Parra
Oscar noted the successful Guided Pathways presentation during Flex Day at Indio. With attendance exceeding sixty-five attendees it is hoped that interest will continue the success of the Guided Pathways program. Oscar thanked all taskforce participants who attended, and assisted with planning the presentation.
2. Guided Pathways Program – Dr. Hall and Taskforce Members
General Discussion
 - Guided Pathways web site – The current site will be updated frequently as progress is made with the development of the program. Student and faculty participation will be an important focus providing data to measure success rates as the program is implemented.
 - Members have completed preliminary work to get the GP program underway with both student and faculty participation. Implementing student participation and planning will be led by members; Amanda Phillips, Angel Meraz, Aries Jaramillo, Veronica Daut, Tiffany Abeytia, and Sheryl O'Donnell.
 - Dr. Hall presented an overview of GP to Ed Policies and Practices Committee on September 6, providing handouts with program information, and stating what community colleges have done to launch their GP programs.
 - Launch Board, Tracking GP data measures: A goal in Stage 1 of the workplan is to develop a data dashboard using Key Performance Indicators from the LaunchBoard and local data. Campus constituents can access the LaunchBoard but it isn't very user friendly. Creating a separate set of metrics might be confusing. Having clear, easy to interpret milestones is important.
 - Consider a 'Call to Faculty' for participation recognizing the plans and goals of the program.

- Four Pillars; a short discussion clarifying categories, and what might be considered for each pillar. Clarify (the path); web site, student voices, professional development, etc.

3. Budget – Dr. Hall

Kelly stressed the importance of having an effect spending strategy toward achieving the overall goals and success of GP. It was suggested that possibly three members could serve as a sub-group to oversee budget expenditures, and provide monthly report.

- With the enormity of the program the work group recommends funding a one year coordinator position using GP budget. This recommendation will be taken to the executive cabinet for input.
- Stipends will continue to be considered for ongoing projects of the program; faculty participation, staff, etc.
- GP Conference, November 26-27, Anaheim; Kelly will ask each of the Senators to identify someone from their area to attend. This will include adjunct and ASCOD representatives.

Next Meeting:

Thursday, September 20, 2018

Location: CSSC DSPS Conference Room
