### NEW ASSOCIATE DEGREES (Transfer/SB 1440) effective Fall 2012

#### MATHEMATICS

The Mathematics is the study of quantity, structure, space and change. It is developed through the use of abstraction and logical reasoning from counting, calculations, measurement, study of shapes & change.

The Associate in Science Degree in Mathematics for Transfer (Math AS-T) provides student with sufficient understanding of mathematical concepts, skills and application to attain upper division status in mathematics at most 4-year institutions. This degree is intended for students who are interested in the theory of mathematics and are planning on transferring to a four-year institution and majoring in Mathematics, Physics, Engineering, Computer Science or Statistics.

Successful completion of the Math AS-T guarantees the student acceptance to a California State University (but not to a particular campus) to pursue a 4-year degree in Mathematics, Engineering, Statistics, Math Education.

To obtain the Associate in Science in Mathematics for Transfer degree, students are required to complete the following:

1. Completion of 60 CSU-transferable semester units.
2. Minimum grade point average (GPA) of at least 2.0 in all CSU-transferable coursework. While a minimum of 2.0 is required for admission, some majors may require a higher GPA. Please consult with a counselor for more information.
3. Completion of 24 semester units in the Mathematics major as detailed in the Program Requirements below. All courses in the major must be completed with a grade of C or better or a "P" if the course is taken on a "pass-no pass" basis (title 5 § 55063).
4. Certified completion of either the California State University General Education-Breadth (CSU GE Breadth) pattern, (see page 64 of the catalog); OR the Intersegmental General Education Transfer Curriculum (IGETC) pattern, (see page 66 of the catalog) for more information.

Students transferring to a CSU campus that does accept the AS-T will be required to complete no more than 60 units after transfer to earn a bachelor's degree (unless the major is a designated "high-unit" major). This degree may not be the best option for students intending to transfer to a particular CSU campus or to university or college that is not part of the CSU system. Students should consult with a counselor when planning to complete the degree for more information on university admission and transfer requirements.
