NFPA 1600, Standard on Disaster/Emergency Management and Business Continuity Programs

**Class Size Maximum**

30

**Course Content**

1. Introduction
  - a. Orientation and Administration
  - b. Fire Officer Certification Process
  - c. Definition of Duty
2. Emergency Service Delivery
  - a. Developing an Initial Action Plan of Action
  - b. Implementing a Plan of Action
  - c. Developing and Conducting a Post Incident Analysis
  - d. Writing a Report Identifying Service Demand Causes

**Course Objectives**

	Objectives
Objective 1	Identify and discuss the duties of a company officer level I and II, and a wild land fire officer I.
Objective 2	Describe the standard operating procedures for emergency operations.
Objective 3	Describe the elements of a post incident analysis.
Objective 4	List command staff and unit supervision positions with the Incident Command System.
Objective 5	Identify different levels in the Fire Officer certification track.
Objective 6	Describe the elements of a post incident analysis.
Objective 7	List strategy and tactic elements of an incident analysis pertaining to safety issues.
Objective 8	Identify resources required to control an emergency incident.
Objective 9	Develop an initial action plan for an emergency incident.
Objective 10	Describe principles of command.
Objective 11	Describe the procedure for the transfer of command.
Objective 12	Identify national, state/provincial, and local information resources available for the mitigation of emergency incidents.

**Student Learning Outcomes**

	Upon satisfactory completion of this course, students will be able to:
Outcome 1	Describe the elements of post incident analysis.
Outcome 2	Analyze emergency scene conditions and determine tactical priorities to mitigate an single-family dwelling incident.

**Methods of Instruction**

Method	Please provide a description or examples of how each instructional method will be used in this course.
Activity	activity
Role Playing	role playing
Participation	participation
Lecture	lecture
Discussion	discussion

**Methods of Evaluation**

Method	Please provide a description or examples of how each evaluation method will be used in this course.	Type of Assignment
College level or pre-collegiate essays	essays	In and Out of Class
Student participation/contribution	student participation	In and Out of Class

Mid-term and final evaluations	mid-term and final evaluations	In Class Only
Tests/Quizzes/Examinations	tests	In Class Only
Group activity participation/observation	group activity participation/observation	In Class Only
Written homework	written homework	Out of Class Only

## Assignments

### Other In-class Assignments

1. Analyze case studies in the following:
  - a. Course textbook(s)
2. Reference the following sources for class activities:
  - a. Course textbook(s)
  - b. FOG Manual (ICS 420-1)
  - c. NFPA 1600
  - d. Various readings published by the National Fire Academy and National Firefighters Foundation.
3. Discuss required writing assignments:
  - a. Short written assignments on identifying Service Demand Causes

### Other Out-of-class Assignments

1. Reading assignments are required and may include but, are not limited to, the following:
  - a. Course textbook(s)
  - b. FOG Manual (ICS 420-1)
  - c. NFPA 1600
  - d. Various readings published by the National Fire Academy and National Firefighters Foundation.
2. Develop a plan of action for a variety of incidents and provide for the ongoing management as it pertains to a structure fire, wild land fire, technical rescue and multicasualty incident.

## Grade Methods

Pass/No Pass Only

## Distance Education Checklist

Include the percentage of online and on-campus instruction you anticipate.

Online %

50

On-campus %

50

## Instructional Materials and Resources

If you use any other technologies in addition to the college LMS, what other technologies will you use and how are you ensuring student data security?

None

## Effective Student/Faculty Contact

Which of the following methods of regular, timely, and effective student/faculty contact will be used in this course?

### Within Course Management System:

Online quizzes and examinations  
 Regular virtual office hours  
 Timely feedback and return of student work as specified in the syllabus  
 Video or audio feedback

### External to Course Management System:

Synchronous audio/video

### For hybrid courses:

Scheduled Face-to-Face group or individual meetings

**Briefly discuss how the selected strategies above will be used to maintain Regular Effective Contact in the course.**

In the hybrid format, students will be given reading and research assignments that will be discussed through the use of zoom or via face-to-face meetings. Lectures will be conducted through zoom, with the ability for students to ask questions and interact with the instructor. The LMS will host all assessments so that feedback can be timely and accessible at any time. Office hours will be offered with an instructor available for any questions the students may have. Additionally, the online portion of the hybrid class will be via zoom in a synchronous modality. This is a requirement through State Fire Training, our accrediting agency.

**If interacting with students outside the LMS, explain how additional interactions with students outside the LMS will enhance student learning.**

Zoom will be used for synchronous audio and visual interaction with the instructor. Lectures will be delivered in this format, as well as hosted discussions.

**Other Information****Provide any other relevant information that will help the Curriculum Committee assess the viability of offering this course in an online or hybrid modality.**

This course is typically an in-person class. State Fire Training has designated certain accredited training centers, including College of the Desert, to offer the course in an online format. In order to meet State Fire Training's requirements, all elements that are online must be in a synchronous modality with an LMS like Canvas. For the hybrid course, this means that the online portions will need to be synchronous.
