

# NRN 120L: ALTERATIONS IN HEALTH: LAB

---

## New Course Proposal

Date Submitted: Tue, 10 Jan 2023 02:19:43 GMT

### Originator

mcamargo

### Justification / Rationale

Update objectives based on feedback from accrediting agencies.

### Effective Term

Spring 2023

### Credit Status

Credit - Degree Applicable

### Subject

NRN - Nursing

### Course Number

120L

### Full Course Title

Alterations in Health: Lab

### Short Title

ALTERATIONS IN HEALTH LAB

### Discipline

#### Disciplines List

Nursing Science/Clinical Practice

### Modality

Face-to-Face

### Catalog Description

This course applies theoretical concepts to psychomotor skills for the care of clients with alterations in health. The course builds on previously learned concepts as well as concepts introduced in NRN 120. Prerequisite: 110C

### Schedule Description

This course applies theoretical concepts to psychomotor skills for the care of clients with alterations in health. The course builds on previously learned concepts as well as concepts introduced in NRN 120. Prerequisite: 110c

### Lab Units

0.5

### Lab Semester Hours

27

### In-class Hours

27

### Out-of-class Hours

**Description**

Course point plus with Honan Focus on Adult Health

---

**Class Size Maximum**

6

**Entrance Skills**

Physical assessment of adults.

**Requisite Course Objectives**

NRN 110C-See Attached Clinical Evaluation Tool

---

**Entrance Skills**

Basic nursing skills (vital signs, ambulation, mobility, pre-operative teaching, sterile field, nutrition, feeding, elimination, hygiene, AM care skills)

**Requisite Course Objectives**

NRN 110C-See Attached Clinical Evaluation Tool

**Entrance Skills**

Demonstration of basic critical thinking skills and observation

**Requisite Course Objectives**

NRN 110C-See Attached Clinical Evaluation Tool

**Lab Content**

See attached clinical evaluation tool

**Course Objectives**

	<b>Objectives</b>
Objective 1	Demonstrate accountability for one's own professional practice.
Objective 2	Apply evidence-based practice in the care of clients at an intermediate level
Objective 3	Interpret relevant client information#necessary for personalized plans of care in the aim of optimal wellness at an intermediate level
Objective 4	Apply various communication modalities with the health care team to promote collaborative client care
Objective 5	Formulate plan of care for the safety of patients experiencing alterations in health.
Objective 6	See attached clinical evaluation tool for complete list of objectives.

**Student Learning Outcomes**

	<b>Upon satisfactory completion of this course, students will be able to:</b>
Outcome 1	Demonstrate required skills from the associated corequisite theory and clinical course.

**Methods of Instruction**

<b>Method</b>	<b>Please provide a description or examples of how each instructional method will be used in this course.</b>
Laboratory	Use of on-campus clinical skills lab and simulation center.
Role Playing	Use of high and low fidelity simulation.
Collaborative/Team	Work as a member within a team to complete lab assignments.
Individualized Study	Read materials for preparations for skills practice.
Skilled Practice at a Workstation	Perform skills using various work stations and high and low fidelity mannequins.
Experiential	Use of high and low fidelity mannequins and case studies.

**Methods of Evaluation**

<b>Method</b>	<b>Please provide a description or examples of how each evaluation method will be used in this course.</b>	<b>Type of Assignment</b>
Computational/problem-solving evaluations	Complete medication calculations to demonstrate proficiency and safety in administering medication to client population.	In Class Only
Student participation/contribution	Skills demonstration and check off.	In Class Only

Behavior assessment

Professionalism and competencies assessed during In Class Only simulations

### Assignments

#### Other In-class Assignments

Perform skills to meet standards of safe competent nursing practice.  
Demonstrate nursing skills in simulation.

#### Other Out-of-class Assignments

Read material to prepare for clinical practice and simulation experiences.  
Create a clinical in-service project.

#### Grade Methods

Pass/No Pass Only

### MIS Course Data

#### CIP Code

51.3801 - Registered Nursing/Registered Nurse.

#### TOP Code

123010 - Registered Nursing

#### SAM Code

C - Clearly Occupational

#### Basic Skills Status

Not Basic Skills

#### Prior College Level

Not applicable

#### Cooperative Work Experience

Not a Coop Course

#### Course Classification Status

Credit Course

#### Approved Special Class

Not special class

#### Noncredit Category

Not Applicable, Credit Course

#### Funding Agency Category

Not Applicable

#### Program Status

Program Applicable

#### Transfer Status

Not transferable

#### General Education Status

Y = Not applicable

#### Support Course Status

N = Course is not a support course

**Allow Audit**

No

**Repeatability**

No

**Materials Fee**

Yes

**Total Material Fees**

140.00-160.00

**Itemized Material Fee List**

Cost Per Item	Total Cost	Fee Description
140.00-160.00	140.00-160.00	120L skills lab kit

Per Education Code section 76365 and Title 5 regulations, please describe how the required material(s) meets the following.

**Required Material Description**

This course requires students to simulate real clinical activities that have been taught, in preparation for actual patient care as part of the course agreement.

**Tangible personal property?**

Yes. The materials listed below, as part of the learning process and in their entirety, are the student's tangible personal property.

**Owned or controlled by the student?**

Yes. The completed practice equipment materials are owned and controlled by the student. They have value after the class is completed because the students continue to utilize them both throughout the semester and in subsequent semester in the Skills Laboratory as they reinforce and are tested on their advancing proficiency.

**Solely available from the district?**

Yes. By the district providing these materials it is less expensive for the student since the material is being purchased by the student at a bulk or discounted rate instead of normal retail prices.

**Continuing value outside the classroom setting?**

Yes. These completed listed materials and their accompanying verification of proficiency of use are of continuing value in that they form a record of lessons learned through the various stages of the course of instruction. When reviewed in combination with the other course assignments, they provide a valuable reference resource to the student. The material is neither consumed nor rendered valueless in the instruction process.

**Additional Fees?**

No
