Outcome 1	Utilize theoretical principles learned in concurrent theory class to successfully provide nursing care to clients with alterations in function of body systems.
-----------	---

Methods of Instruction

Method	Please provide a description or examples of how each instructional method will be used in this course.
Activity	Clinical hours to meet BVNPT requirement. Students are required to have 378 direct patient care hours per semester.
Technology-based instruction	Electronic medical records, glucometer, bladder scanner, and electronic medication dispensing machine, work station on wheel, and various medical devices.
Supplemental/External Activity	Patient care planning, drug card preparation
Role Playing	High and low-fidelity simulation
Participation	Patient care required by the BVNPT is 378 hours direct patient care per semester.
Observation	Operating room experience under directions of registered nurses in this specialty setting.
Laboratory	Clinical hours at various clinical sites. Hours represent the hours of direct patient care set forth by the BVNPT.
Experiential	Clinical hours in various clinical settings. Total of 378 direct patient care hours must be completed.
Discussion	Pre- and post-conference discussion regarding direct patient care experiences.
Demonstration, Repetition/Practice	Skills specific to VN level: foley cath insertion/removal, medication, administration, charting, report/handoff
Collaborative/Team	Work with interdisciplinary team to provide patient care needs
Clinical	Required hours per BVNPT Board to sit for licensing exam

Methods of Evaluation

Method	Please provide a description or examples of how each evaluation method will be used in this course.	Type of Assignment
College level or pre-collegiate essays	Case Studies	In Class Only
Behavior assessment	clinical evaluation tool	In Class Only
Oral and practical examination	skills validation/check off, Socratic Questioning	In Class Only
Self/peer assessment and portfolio evaluation	clinical evaluation tool, clinical portfolio	In Class Only
Field/physical activity observations	pre-clinical physical evaluation, faculty observation in clinical setting	In and Out of Class
Laboratory projects	Clinical skills lab	In Class Only
Written homework	Nursing Care Plans	In and Out of Class

Assignments

Other In-class Assignments

1. Appear at clinical on time and in appropriate attire.
2. Read assigned chapters in textbooks or outside reading assignment as related to assigned client care.
3. Complete care of assigned clients.

Other Out-of-class Assignments

None

Grade Methods

Pass/No Pass Only
