Entrance Skills

Apply data collected in assessment of client's needs when planning and implementing care.

Requisite Course Objectives

VN 020-Identify the data to be collected in client assessment.

VN 020L-Apply data collected in assessment of client's needs when planning and implementing care.

Entrance Skills

Develop nursing care plans for clients assigned to their care.

Requisite Course Objectives

VN 020-Outline the components of a complete nursing care plan.

VN 020L-Develop nursing care plans for clients assigned to their care.

Entrance Skills

Provide competent nursing care that incorporates an understanding of standards of care.

Requisite Course Objectives

VN 020-Explain the importance of nursing standards in the delivery of competent nursing care.

VN 020L-Provide competent nursing care that incorporates an understanding of standards of care.

Entrance Skills

Communicate therapeutically with clients and families.

Requisite Course Objectives

VN 020-Describe critical elements of written and verbal communication.

VN 020L-Communicate therapeutically with clients and families.

Entrance Skills

Participate as members of the health care team.

Requisite Course Objectives

VN 020-Discuss the role of the vocational nurse on the health care team.

VN 020L-Participate as a member of the health care team.

Entrance Skills

Assume responsibility and accountability for performing professionally in the clinical environment.

Requisite Course Objectives

VN 020-Discuss the role of the vocational nurse on the health care team.

VN 020-Identify the role of the vocational nurse in leadership and supervisory roles.

VN 020L-Assume responsibility and accountability for performing professionally in the clinical environment.

Entrance Skills

Corequisite skills:

Recognize the influence of the family and cultural practices on growth, development, nutrition, and health care.

Requisite Course Objectives

VN 030-Recognize the influence of the family and cultural practices on growth, development, nutrition, and health care. (NUTRITION)

Entrance Skills

Demonstrate the proper therapeutic communication techniques during interactions with pediatric clients and their family members.

Requisite Course Objectives

VN 030-Demonstrate the proper therapeutic communication techniques during interactions with pediatric clients and their family members. (COMMUNICATION)

Entrance Skills

Compare and contrast physical findings between a pediatric and an adult client.

Requisite Course Objectives

VN 030-Compare and contrast physical findings between a pediatric and an adult client.

Entrance Skills

Integrate knowledge of growth and development with nursing process to assist in the development of a nursing care plan for the pediatric client and family.

Requisite Course Objectives

VN 030-Integrate knowledge of growth and development with nursing process to assist in the development of a nursing care plan for the pediatric client and family. (GROWTH AND DEVELOPMENT)

Entrance Skills

Assess the impact of an illness, especially one requiring hospital stay, on a child.

Requisite Course Objectives

VN 030-Assess the impact of an illness, especially one requiring hospital stay, on a child.

Entrance Skills

Describe common nursing interventions used in the health care of children to aid in the diagnosis and during therapy.

Requisite Course Objectives

VN 030-Describe common nursing interventions used in the health care of children to aid in the diagnosis and during therapy. (PEDIATRIC NURSING)

Entrance Skills

Assist in the formulation of nursing care plan for pediatric client with alterations in the function of body systems.

Requisite Course Objectives

VN 030-Assist in the formulation of nursing care plan for pediatric client with alterations in the function of body systems. (NURSING PROCESS)

Entrance Skills

Evaluate the effectiveness of nursing care plan for pediatric client and provide validation of findings in client's record.

Requisite Course Objectives

VN 030-Evaluate the effectiveness of nursing care plan for pediatric client and provide validation of findings in client's record. (NURSING PROCESS)

Entrance Skills

Explore the role of the vocational nurse in the workplace and list a variety of work settings that currently employ licensed vocational nurses in this community.

Requisite Course Objectives

VN 030-Explore the role of the vocational nurse in the workplace and list a variety of work settings that currently employ licensed vocational nurses in this community.

Course Content

See lab content.

Lab Content

1. Provider Of Care
 - a. Collects objective data
 - b. Collects subjective data
 - c. Interprets data
 - d. Provides diagnosis
 - e. Develops a plan
 - f. Implements a plan
 - g. Evaluates plan
2. Manager Of Care
 - a. Provides care for clients with basic alterations in health
 - b. Promptly communicates changes in the client's basic health status to the instructor and team leader.
 - c. Maintains communications by accurate and concise recording and reporting
 - d. Identifies the following factors when providing client care:
 - i. Role of significant others
 - ii. Cultural awareness in communication, health teaching and nutrition.
 - iii. Age-related factors
 - e. Demonstrates supervision skills by assisting LVN/RN charge nurse in long term care:
 - i. Assist with phone orders
 - ii. Assists with weekly client assessments
 - iii. Assigns coffee and lunch breaks
 - iv. Assists team members as needed
 - v. Checks that nursing care was completed and recorded/reported
 - vi. Seeks help when necessary
 - vii. Practices in a cost-effective manner
 - f. Member Within The Discipline
 - i. Uses lines of authority in communications
 - ii. Identifies the client advocacy role of the vocational nursing student
 - iii. Exhibits honesty and reliability
 - iv. Identifies own strengths and weakness
 - v. Formulates a plan to strengthen areas of weakness
 - vi. Maintains professional client confidentiality at all times
 - vii. Seeks learning experiences actively
 - viii. Follows COD Nursing students' dress and conduct codes
 - ix. Regularly reports for clinical and post-conference on time.
 - x. Participates in post-conference discussions
 - xi. Recognizes professional obligation to report behaviors in self and others that jeopardize client safety
 - xii. Maintains professional verbal/non-verbal behavior with peers/faculty/nursing team

Course Objectives

Objectives	
Objective 1	Assess basic physical, emotional, spiritual and socio-cultural needs of clients of all ages using a variety of resources.
Objective 2	Develops nursing care plans, establishing priorities and revising as necessary.
Objective 3	Provides safe, competent nursing care using accepted standard of practice and making appropriate referrals.
Objective 4	Evaluates care to determine priorities, goals, and effectiveness of care.
Objective 5	Incorporates effective communication skill in nursing role, in therapeutic relationships with clients and families and in collaboration with members of the health team.
Objective 6	Demonstrates skills needed by the LVN who is functioning as a team leader.
Objective 7	Assumes responsibility and accountability for managing one's own actions and care delegated to those with lesser preparation.
Objective 8	Practices within the scope of practice of the licensed nurse.
Objective 9	Adheres to nursing code of ethics when delivering care to clients of all ages.

Objective 10 Seeks opportunity for continued professional growth and performance.

Objective 11 Advocates for the health care consumers through political, economic, and societal activities.

Student Learning Outcomes

Upon satisfactory completion of this course, students will be able to:

Outcome 1 Recognize and model the supervisory role of the vocational nurse within the health care team.

Outcome 2 Demonstrate care of specialized populations in the acute care and outpatient setting.

Methods of Instruction

Method	Please provide a description or examples of how each instructional method will be used in this course.
Collaborative/Team	Assigned to various clinical sites and required to work within interdisciplinary teams at the sites.
Technology-based instruction	Electronic medical records, utilize medical technology at various clinical sites, and work with electronic medication dispensing equipment.
Self-exploration	Provide written and or verbal self reflection on various clinical learning activities.
Role Playing	Use of low, medium, and high fidelity simulation.
Participation	Active participation following the nursing process in clinical settings. Participate in 216 direct patient care hours as approved by the BVNPT.
Observation	Observation of care of the laboring woman. Work under the direction of a registered nurse to observe the role of the nurse during labor and delivery.
Laboratory	Various clinical laboratory sites. Must participate in 216 hours of direct patient care.
Journal	Journal and self-reflection activities may be included in clinical lab setting.
Experiential	Active participation in various clinical sites that employ vocational nurses.
Clinical	Various clinical sites and on campus clinical lab. Participate in 216 direct patient care hours.
Discussion	Pre and post conference discussions.
Demonstration, Repetition/Practice	Demonstration and practice of skills necessary to perform duties as a Licensed Vocational nurse including but not limited to medication administration, Foley catheter care, data collection, and vital signs. Complete 216 direct patient care hours.
Activity	Development of care plans and concept maps for client care.

Methods of Evaluation

Method	Please provide a description or examples of how each evaluation method will be used in this course.	Type of Assignment
Written homework	Care plans and concept maps.	In and Out of Class
Behavior assessment	Use of clinical evaluation tool for assessment of behaviors consistent with the professional nurse.	In Class Only
Oral and practical examination	Validation of skills needed for client care.	In Class Only
Mid-term and final evaluations	Final skills validation.	In Class Only
Self/peer assessment and portfolio evaluation	Portfolio of work done throughout the semester.	In Class Only
Computational/problem-solving evaluations	Computation of dosage calculations.	In Class Only
Field/physical activity observations	Participation in clinical site assignments.	In Class Only
Laboratory projects	Satisfactory completion of clinical objectives	In Class Only

Assignments

Other In-class Assignments

1. Appear at clinical on time and in appropriate attire.
2. Read assigned chapters in textbooks or outside reading assignment as related to assigned client care.
3. Complete care of assigned clients.
4. Provide nursing care plans for assigned clients.

Other Out-of-class Assignments

None
