

College of the Desert Campus Forums

March 9 & 10, 2017

College of the Desert invites you to an important campus forum as we shape and update the college's Educational Master Plan to guide us through 2022.

It's an exciting time at COD as we continue to expand in order to best serve and provide a higher education to students throughout the Coachella Valley, from Desert Hot Springs and Palm Springs in the west to Mecca and Thermal in the east. With the launch of the new pLEDGE program that will guarantee free tuition to the 2017 local high school graduates this fall and the passage of Measure CC, the college will continue to grow.

These campus forums will provide an opportunity to connect with the data that has been gathered during the discovery phase of the process. Please join us to learn more about where we might go in the future.

March 9, 2017

Palm Desert Campus

1:45-2:45 pm
