## Student Registration Has Changed

College of the Desert has transitioned from WebAdvisor to Self-Service for online student access. **Beginning Summer 2023**, students began to use Self-Service to add/drop courses, add themselves to waitlists, and utilize the add authorization process to enroll in closed courses. Important information on Self-Service has been placed in the student portal.

Students will still register according to their registration priority in the student planning area of Self-Service. An instructional How to Register video can be found on the student portal.

WebAdvisor will no longer be available and will be shut down on December 17, 2023.

The add code process has been replaced with Add Authorization via Self-Service to add a course during the *Add Authorization period*. Add Codes are not used.

Faculty, staff, and students may verify if a course requires approval to add a course (authorization to add) by using the tool below which is found in the Student Portal, Faculty Resource Webpage, and in the Catalogs & Schedules webpage.

In Self-Service, once the student receives instructor approval to add a course the authorized section will have a blue “Authorized for Add” flag on their schedule. When a student receives

instructor approval via Self-Service to add a course, the student will need to click the Register button to finish registering. Registration will process assuming all prerequisites and holds have been cleared.

Also, students should make sure to drop a course they have decided not to attend. Faculty are no longer required to drop during the semester. Not dropping a course will result in an FW grade.

**What Is Work Experience Education?**

College of the Desert's Work Experience Education is a unique academic program where students apply what they have learned in the classroom to a real work environment - all while earning college credit!

By enrolling in a Work Experience course, students will participate in experiential learning activities that will enhance their skill set and strengthen effective work habits. Additionally, students have the opportunity to be coached and mentored by a faculty advisor as a subject matter expert in the student's field of study.

All students who currently work, volunteer, intern, or that have a student worker or federal work study position are eligible to enroll. Credits earned are transferrable to the CSU system. Students may enroll in General Work Experience or an Occupational course based on the student's educational goal and current job-related duties.

**General Work Experience (WEG - 095A)**

**WEG – 095A** is for students who currently have a position that **does not** relate to the student's occupational/educational goal. 1-5 credits of General Work Experience per semester can be earned per semester providing that the hour requirement is met (see chart on next page).

**Occupational Work Experience (XXX - 095A)**

Occupational courses, such as: AUTO-095A, KINE-095A, BUHM-095A, etc. are for students majoring in the respective field and have a current position that directly aligns with the major/educational goal. If their current position **does** relate to their educational/occupational goal. 1-5 credits in any occupational work experience course can be earned per semester, providing that the hour requirement is met, see chart on next page. Here's a full list of [participating Work Experience programs](#).

**Requirements**

To enroll in a Work Experience course, students must:

- Have a declared major or career goal
- Have a job, internship, student worker, or volunteer position secured before enrolling
- Commit to the job/internship/volunteer position for the duration of the enrollment term (for example: 16-weeks, 12-weeks, or 8-weeks during summer)
- If you are not a current College of the Desert student, complete your [Application for Admission](#).

**Earning College Credit**

The number of credits students may earn is based on how many hours the student will work per semester. Use the table on the next page to determine up to how many credits can be earned based work hours. Note that some academic programs, such as Automotive Technology only require 2 credits of Work Experience, others more. See list of [participating Work Experience programs](#) to view number of credits required.

Once enrolled via Self Service, students must complete three learning objectives, required course assignments and forms. All course content can be found via Canvas 24/7. Work Experience courses meet a total of four times (Zoom meetings are acceptable).

If student is actively seeking an internship/job, take into consideration school schedule and time-management skills, along with the agency needs to determine hour commitment towards the internship/job throughout the semester.

Use the chart below to help you pre-determine up to how many units you may qualify to earn based on the number of hours you will complete. When registering via Self Service, you must choose from the drop-down menu to select the number of units you qualify for. There are no exceptions to the minimum hour requirement.

(54 hours per unit required)

Units	Total required hours	16 week average weekly hours	12-week average weekly hours	8-week average weekly hours
1	54	4	5	7
2	108	7	9	14
3	162	11	14	21
4	216	14	18	27
5	270	17	23	34

#### Available Sessions

- 16 Week Session (full semester ) September 2 - December 19, 2025
- 12 Week Session (late starting ) September 29 - December 19, 2025

#### What to Expect Out of a Work Experience Class

- Work Experience classes are non-traditional - the majority of the work is completed at the student's job site!
- Students meet a total of four (4) times during the course; two on campus with their Work Experience Instructor, and two at the student's job site with their Work Experience Instructor and supervisor. (Zoom meetings are acceptable).
- During the course, students will develop and work on three (3) S.M.A.R.T. goals/objectives and have the opportunity to apply and enhance the following 21st-century Employability Skills:
  1. Adaptability
  2. Self-Awareness
  3. Digital Fluency
  4. Communication
  5. Collaboration
  6. Empathy
  7. Analysis/Solution Mindset
  8. Resilience
  9. Entrepreneurial Mindset
  10. Social/Diversity Awareness
- Students will participate in a Final Job Site Evaluation where they will receive constructive feedback from their supervisor related to the completion of the three SMART goals and their application of the 10 Employability Skills listed above.
- All course content is available via Canvas 24/7. Students are expected to log-in on the first day of class.

## Accounting

Do you know that Al Capone was caught by an accountant?

That's right; it actually wasn't Elliot Ness or his legendary team the "Untouchables" that brought the famous mobster to justice. It was a forensic accountant with the U.S. Treasury Department who put together the case for tax evasion that landed the bad guy behind bars.

Most students don't realize the variety of accounting jobs the profession has to offer. For instance, Forensic Accountants merge accounting with investigative legal work, Public Accountants are tasked with accounting, auditing, taxes, and consulting for both business and individuals, Management Accountants provide financial information to decision makers within a company, and Non-Profit/Government Accountants are employed by various public agencies to administer and maintain their financial records.

At College of the Desert students interested in pursuing a career in accounting can earn a Certificate of Achievement in Accounting or an Associate of Science Degree in Accounting. Our accounting program is designed to provide students with the knowledge and skills necessary for employment or advancement in the accounting profession.

Additionally, students can earn a Bachelor's Degree without ever leaving the desert!

Just complete the transfer AA Business Degree at COD and then finish the upper division accounting program at the Palm Desert campus of CSUSB.

Who knows? Maybe you will catch the next Al Capone!

### Looking for Administration of Justice classes?

AJ classes are now listed under Criminal Justice (CJ).

### Student Computer Literacy and Access

One of the institutional outcomes for all COD students is technological literacy. As such, any class may be web enhanced and might require access to online sites such as Canvas, MyMathLab, MyLab, or the textbook publisher's website for assignments, testing, homework, etc. Internet-ready computers are available in a variety of locations, including the Tutoring and Academic Skills Center (TASC) and Library.

## 16 ADU- AGEH

### Tutoring and Academic Skills Center (TASC)

Tutoring and Academic Skills Center (TASC) supports independent study habits and sustainable learning for all students at College of the Desert. This is accomplished by providing resources that empower individuals to take charge of their goals. TASC labs can be found at all major sites for College of the Desert.

TASC resources include:

- Peer tutors for general subjects
- Tutor and staff support with writing and math
- Computer lab space for coursework and research
- 24/7 Online tutoring access (with synchronous subjects) through Smarthinking
- Helpful, friendly staff

When students access tutoring for TASC, they are automatically enrolled in ASC 300, Supervised Tutoring. This is an open entry/open exit course where COD students with learning needs in academic subjects receive drop-in tutoring, small group instruction, and computer assisted or mediated instruction that supplements classroom instruction. Registration is accomplished automatically.

## AIR CONDITIONING HVAC

The Air Conditioning/HVAC program is a well established curriculum and has long served the desert community by providing highly trained individuals to work in various businesses throughout the Coachella Valley. The program offers a Certificate and Associate of Science degree for employment preparation that is designed to provide a wide range of courses in order to best serve student needs.

In addition, required courses listed in this schedule are derived from the collaboration and dedicated efforts of members of a Technical Advisory Committee and other individuals experienced in the specific occupational areas.

Several certificate programs, as well as degree programs, are offered by the School of Applied Sciences and Business. Students are encouraged to meet with a member of the School's faculty to discuss certificate and/or degree programs prior to registration. It is also helpful for students to review available programs listed in the current College of the Desert Catalog.

Architecture/  
Environmental Design programs have a common objective - to help prepare students to understand issues related to the betterment of the human physical environment. This format is accomplished by interrelated courses in Architecture, Applied Construction Technology, Landscape Design, Drafting/CAD, and Building Inspection Technology. These courses and programs endeavor to give students a technical background, a set of social values, and a range of occupational skills, which result in creative expression.

### Applied Construction Technology

Students completing the certificate or degree requirements for the Applied Construction Technology curriculum will gain proficiency in basic residential construction techniques in conformance with the most current building codes. Competencies are assessed regularly by student performance in both the classroom and hands-on in the construction technology laboratory.

### Should I take an Astronomy class, and if so, which one?

Have you ever wondered why and how the planets orbit around the sun? Have you thought about black holes and time travel? If so, then Descriptive Astronomy, A-001 or A-002 will give you an opportunity to learn the answers to all these questions plus learn how COD's state of the art, remotely operated 1-meter telescope at the Mary Reagan Observatory works.

Both A-001 and A-002 fulfill the natural science elective and will transfer to the UCs and Cal States. The only difference is A-002 is a (4) unit class that includes a laboratory component while A-001 is (3) unit lecture only class. Also, if you need a natural science elective with a lab, A-002 fills that requirement.

In addition to a natural science elective, these courses are also worthwhile for science majors who plan to pursue a career in Physics, Astronomy, Astrophysics or Space Science.

Did You Know?

BI 005 Molecular & Cell Biology

and

BI 006 Biology of Organisms

are offered in the Fall and Spring

BI 005 & BI 006 are now articulated with UC Riverside as UCR's BIOL 5A, 5B & 5C if both BI 005 & BI 006 are taken at COD. BI 005 is not a pre-requisite to BI 006; you may take them in any order.

**BI 007 Biology of  
Mammals  
and  
BI 007L Biology of  
Mammals Lab**

BI 007, Biology of Mammals, has been approved for use as a natural science general requirement by the UCs and Cal States.

Lecture and lab are two separate courses so if only lecture is required, the lab does not have to be taken. To take the lab, the lecture has to be currently or previously taken.

For science majors, It provides an additional biology course after completing BI 005 and BI 006.

It is important that students attend the first class meeting of each course in which they are enrolled, whether or not it is designated as a lecture or a lab. Faculty may drop students who do not appear in the first lecture or lab section.

### Student Computer Literacy and Access

One of the institutional outcomes for all COD students is technological literacy. As such, any class may be web enhanced and might require access to online sites such as Canvas, MyMathLab, MyLab, or the textbook publisher's website for assignments, testing, homework, etc. Internet-ready computers are available in a variety of locations, including the Tutoring and Academic Skills Center (TASC) and Library.

### Early Childhood Education Child Development & Education

Students should be advised that both CDE-101 (formerly ECE-010) and CDE-102 (formerly ECE-012) are required courses that must be completed prior to working with children in a program licensed by the State of California.

## ENGL 57

Common Course  
Numbering  
is here  
Fall 2025

California Community Colleges, including College of the Desert, are adopting a system that assigns the same course number to comparable courses across all California Community Colleges to streamline transfer for students.

Starting Fall 2025, several Common Course Numbering (CCN) courses will be offered for general education. These courses will have a new course code, number and subject:

- COMM 001 will become **COMM C1000**
- ENG 001A will become **ENGL C1000**
- ENG 001X will become **ENGL C1000E**
- ENG 003 will become **ENGL C1001**
- MATH 014 will become **STAT C1000**
- PS 001 will become **POLS C1000**
- PSY 001 will become **PSYC C1000**

Fall classes are being held in person, synchronously via Canvas, or asynchronously.

Synchronous meetings occur at the same time and day as designated in this class schedule. Be sure to check the start and end date, and drop deadlines that apply to each class you select.

## Student Education Plans (SEP)

Did you know that the Student Success Act of 2012 (SB 1456) requires students with 15 degree applicable units or three semesters of attendance (whichever comes first), to have an SEP in order to receive priority registration.

In compliance with this law, students that meet those conditions and do not have an SEP will have to register much later than other students during Open Enrollment.

If you need more information about the SEP process, contact the Counseling Center at 760 773-2521.

## 66 ESLN-ETHN

### Ethnic Studies

Ethnic Studies is the interdisciplinary study of race and racism utilizing intersectional, comparative, relational, and transnational approaches that focus on the histories, experiences, cultures, and struggles of historically minoritized ethno-racial groups in the United States.

The field focuses primarily on Indigenous/Native American studies, Black/African American studies, Latinx/Chicanx studies, and Asian American/Pacific Islander studies, while also engaging in analysis of other racialized ethnic groups in the U.S.

Ethnic Studies also investigates how race and ethnicity intersect with class, gender, ability, and sexuality in order to help students develop a critical understanding of the complex and intersecting historical struggles and movements for social transformation, resistance, and liberation in the U.S. and beyond.

## GEOG-GEOL 71

### G 010 : The Earth Sciences and G 001: Physical Geology

The Earth Sciences (G-010) is intended for students with a strong science background. This rigorous, fast-paced course is a survey of astronomy, meteorology, climatology, oceanography, and geology.

Physical Geology (G-001) serves as an introduction to the field for majors and those looking to fulfill their general education requirement. Subject matter for this course includes Earth materials and processes such as minerals, rocks, plate tectonics, earthquakes, and volcanoes.

The lecture and lab for both courses are designed to fulfill the natural science elective and have been accepted for transfer to the UC and CSU systems in addition to meeting the requirements of IGETC.

Due to the demanding course load of The Earth Sciences (G-010), the Physical Geology (G-001) may be a better option unless G-010 is required for certificate or degree completion.

**Geology classes have moved to the Liberal Arts Building**

Due to construction of the Science building, Geology classes on the Palm Desert campus will be held in the Liberal Arts building, room 9B.

### Varsity Sports Men and Women

Many Varsity sports start prior to September 2, 2025, the first day of the Fall 2025 term.

Check the section information for your sport's starting date.

### Physical Therapist Assistant Program

See page 101 in this class schedule to learn about this program at COD.

For questions about the application process or the program, contact Dr. Matthew Wilson, Program Director at [mawilson@collegeofthedesert.edu](mailto:mawilson@collegeofthedesert.edu)

### Maker Space

Are you familiar with maker-spaces? Do you like to tinker? Enroll in one of the MAKR courses this fall and explore your creative side.

MAKR 700 will teach about the history of makerspaces and allow students to take their ideas and bring them to life.

MAKR 301/302 will provide students the opportunity to train on the equipment available in the COD makerspace called Roadrunner Makers. The maker movement welcomes students of all majors!

COD-registered students are provided free access to Roadrunner Makers, so come visit South Annex-4 during our open lab hours:

### COD is a Smoke Free Campus

College of the Desert and all of its campuses are smoke-and tobacco-free. At the request of the Associated Students of College of the Desert, the College's Board of Trustees adopted Policy 3570 on July 19, 2018, which bans smoking, vaping and all tobacco products.

This policy applies to all students, faculty and staff and includes all activities occurring on the College's campuses, including the weekend Street Fair.

Anyone who needs help quitting tobacco can call 1-(800) NO-BUTTS, visit [www.NoButts.org](http://www.NoButts.org), or go to Student Health Services to obtain smoking cessation information.

Whether you are a smoker or a non-smoker, College of the Desert knows that the campus community will demonstrate thoughtfulness, consideration and cooperation as we work together to successfully implement this new policy.

### Tutoring and Academic Skills Center (TASC)

The Tutoring and Academic Skills Center (TASC) provides students with many academic resources to help them succeed in their courses. Students can seek help at any TASC location (Palm Desert, Indio, Palm Springs, Mecca/Thermal, and Coachella) for academic skill support. Services include Canvas and student portal navigation, computer and technology help, study skills advice, and campus resource referrals. Students can also find study spaces and computers equipped with webcams and academic software (Office, SPSS, etc.) at each location.

For students looking for more specific subject support, they can work with peer tutors at the Palm Desert and Indio TASC sites. All TASC tutoring is drop-in; no appointments needed. To view tutoring subject offerings by campus, tutor schedules, and online tutors' Zoom links, visit the TASC Tutoring Schedules page on the TASC Canvas.

Finally, NetTutor is available as additional virtual support. From the NetTutor Student Hub page, students can view all available tutoring options, including drop-in or by appointment.

Have questions about TASC resources? Feel free to call (760) 776-7241.

## NURS 95

### PATIENT HEALTH CARE

Students enrolled in the School of Health Sciences, who are in a clinical program, are subject to special guidelines developed to protect patient safety. A Social Security number is required for clinical placement. A student may be asked to withdraw from the CNA or Nursing program for academic reasons or for other reasons such as drug/alcohol abuse, inappropriate social or emotional behavior, or documented acts of dishonesty. The faculty reserves the right to remove from the clinical area any student who, in the faculty member's professional judgment, places the patient in physical or emotional jeopardy.

### MALPRACTICE INSURANCE REQUIREMENT

College policy requires each student enrolled in the health occupation programs, which require patient contact for the development of specific skills, to purchase insurance coverage against liability for malpractice.

## Physics Program

**PH 001 "Introductory Physics"** is designed for Liberal Studies transfer majors (K-5 teachers), and also to satisfy the General Education requirement in the Physical Sciences area. The math prerequisite is MATH-054. PH 001 is offered every semester.

**PH-003A, PH-003B, PH-003C "Engineering Physics"** is a three semester calculus-based physics sequence for scientists and engineers, including those entering the computer fields. The Math prerequisite for PH 003A is MATH 001A, and for PH-003B the Math prerequisite is MATH-001B.

## Common Course Numbering is here - Fall 2025

California Community Colleges, including College of the Desert, are adopting a system that assigns the same course number to comparable courses across all California Community Colleges to streamline transfer for students.

Starting Fall 2025, several Common Course Numbering (CCN) courses will be offered for general education. These courses will have a new course code, number and subject:

- COMM 001 will become **COMM C1000**
- ENG 001A will become **ENGL C1000**
- ENG 001X will become **ENGL C1000E**
- ENG 003 will become **ENGL C1001**
- MATH 014 will become **STAT C1000**
- PS 001 will become **POLS C1000**
- PSY 001 will become **PSYC C1000**
