Student Registration Has Changed

College of the Desert has transitioned from WebAdvisor to Self-Service for online student access. **Beginning Summer 2023**, students began to use Self-Service to add/drop courses, add themselves to waitlists, and utilize the add authorization process to enroll in closed courses. Important information on Self-Service has been placed in the student portal.

Students will still register according to their registration priority in the student planning area of Self-Service. An instructional How to Register video can be found on the student portal.

WebAdvisor will no longer be available and will be shut down on December 17, 2023.

The add code process has been replaced with Add Authorization via Self-Service to add a course during the *Add Authorization period*. Add Codes are not used.

Faculty, staff, and students may verify if a course requires approval to add a course (authorization to add) by using the tool below which is found in the Student Portal, Faculty Resource Webpage, and in the Catalogs & Schedules webpage.

In Self-Service, once the student receives instructor approval to add a course the authorized section will have a blue “Authorized for Add” flag on their schedule. When a student receives instructor approval via Self-Service to add a course, the student will need to click the Register button to finish registering. Registration will process assuming all prerequisites and holds have been cleared.

Also, students should make sure to drop a course they have decided not to attend. Faculty are no longer required to drop during the semester. Not dropping a course will result in an FW grade.

**The Winter Intercession dates for asynchronous (online) sections are as follows:
Friday, January 2 to Thursday, January 22, 2026**

Please check the College of the Desert Website for changes.

January 1	Authorization to Add is required for all courses at 5:00 p.m.
January 2	Winter Intercession classes begin.

Student Education Plans (SEP)

Did you know that the Student Success Act of 2012 (SB 1456) requires students with 15 degree applicable units or three semesters of attendance (whichever comes first), to have an SEP in order to receive priority registration.

In compliance with this law, students that meet those conditions and do not have an SEP will have to register much later than other students during Open Enrollment.

If you need more information about the SEP process, contact the Counseling Center at (760) 773-2521.

COD Is A Smoke Free Campus

College of the Desert and all of its campuses are now smoke and tobacco-free. At the request of the Associated Students of College of the Desert, the College's Board of Trustees adopted Policy 3570 on July 19, 2018, which bans smoking, vaping and all tobacco products.

This policy applies to all students, faculty and staff and includes all activities occurring on the College's campuses, including the weekend Street Fair.

Anyone who needs help quitting tobacco can call 1-(800) NO-BUTTS, visit www.NoButts.org, or go to Student Health Services to obtain smoking cessation information.

Whether you are a smoker or a non-smoker, College of the Desert knows that the campus community will demonstrate thoughtfulness, consideration and cooperation as we work together to successfully implement this new policy.

What Is Work Experience?

College of the Desert's Work Experience Education is a unique academic program where students apply what they have learned in the classroom to a real work environment - all while earning college credit!

By enrolling in a Work Experience course, students will participate in experiential learning activities that will enhance their skill set and strengthen effective work habits. Additionally, students have the opportunity to be coached and mentored by a faculty advisor as a subject matter expert in the student's field of study.

All students who currently work, volunteer, intern, or that have a student worker or federal work study position are eligible to enroll. Credits earned are transferrable to the CSU system. Students may enroll in General Work Experience or an Occupational course based on the student's educational goal and current job-related duties.

General Work Experience (WEG – 095A)

WEG – 095A is for students who currently have a position that **does not** relate to the student's occupational/educational goal.

1 - 5 credits of General Work Experience per semester can be earned per semester providing that the hour requirement is met, (see chart on next page).

Occupational Work Experience (XXX – 095A)

Occupational courses, such as: AUTO-095A, KINE-095A, BUHM-095A, etc. are for students majoring in the respective field and have a current position that directly aligns with the major/educational goal. If their current position **does** relate to their educational/occupational goal, **1 - 5** credits in any occupational work experience course can be earned per semester, providing that the hour requirement is met, see chart on next page. Check out the full list of [participating Work Experience programs](#).

Requirements

To enroll in a Work Experience course, students must:

- Have a declared major or career goal
- Have a job, internship, student worker, or volunteer position secured before enrolling
- Commit to the job/internship/volunteer position for the duration of the enrollment term (for example: 16-weeks, 12-weeks, or 8-weeks during summer)
- If you are not a current College of the Desert student, complete your [Application for Admission](#).

Earning College Credit

The number of credits students may earn is based on how many hours the student will work per semester. Use the table on the next page to determine up to how many credits can be earned based work hours. Note that some academic programs, such as Automotive Technology only require 2 credits of Work Experience, others more. See list of [participating Work Experience programs](#) to view number of credits required.

Once enrolled via Self Service, students must complete three learning objectives, required course assignments and forms. All course content can be found via Canvas 24/7. Work Experience courses meet a total of four times (Zoom meetings are acceptable).

If student is actively seeking an internship/job, take into consideration school schedule and time-management skills, along with the agency needs, to determine hour commitment towards the internship/job throughout the semester.

Use the chart below to help you pre-determine up to how many units you may qualify to earn based on the number of hours you will complete. When registering via Self Service, you must choose from the drop-down menu to select the number of units you qualify for. There are no exceptions to the minimum hour requirements for paid or unpaid positions.

(54 hours per unit required)

Units	Total required hours	16 week average weekly hours	12 week average weekly hours	8 week average weekly hours
1	54	4	5	7
2	108	7	9	14
3	162	11	14	21
4	216	14	18	27
5	270	17	23	34

Available Sessions:

- 16 Week Session (full semester) January 26 - May 22, 2026
- 12 Week Session (late starting) February 23 - May 22, 2026

What to Expect Out of a Work Experience Class:

- Work Experience classes are non-traditional - the majority of the work is completed at the student's job site!
- Students meet a total of four (4) times during the course; two on campus with their Work Experience Instructor, and two at the student's job site with their Work Experience Instructor and supervisor. (Zoom meetings are acceptable).

Accounting

The Bureau of Labor Statistics projects that 166,700 new accounting and auditing jobs will open up by 2022. This means the demand for well-educated accounting professionals will increase over 13 percent between now and then. Organizations large to small, domestic or global require financial guidance from professionals with accounting knowledge who can prepare, analyze, verify, and communicate financial information.

Most students don't realize the variety of accounting jobs the profession has to offer. Whereas, Forensic Accountants merge accounting with investigative legal work, Public Accountants are tasked with accounting, auditing, taxes, and consulting. Management Accountants work with decision makers within a company, and Non-Profit/Government Accountants are employed by various public agencies.

At College of the Desert students interested in pursuing a career in accounting can earn either a Certificate of Achievement in Accounting, an A.S. degree in accounting for employment preparation, or both, providing students with the skills necessary for employment or advancement in the accounting profession.

Additionally, students can earn a Bachelor's Degree without ever leaving the desert! Just complete the transfer AA Business Degree at COD and then finish the upper division accounting program at the Palm Desert campus of CSUSB.

Applied Construction Technology

Students completing the certificate or degree requirements for the Applied Construction Technology curriculum will gain proficiency in basic residential construction techniques in conformance with the most current building codes.

Competencies are assessed regularly by student performance in both the classroom and hands-on in the construction technology laboratory.

Architecture Environmental Design Programs

Architecture/Environmental Design programs have a common objective - to help prepare students to understand issues related to the betterment of the human physical environment. This format is accomplished by interrelated courses in Architecture, Building Inspection Technology, Construction Management, Landscape Design, and Drafting/CAD. These courses and programs endeavor to give students a technical background, a set of social values, and a range of occupational skills, which result in creative expression.

Planet Jupiter along with the four Galilean Moons.

Should I take an Astronomy class? And if so, which one?

Have you ever wondered why and how the planets orbit around the sun? Have you thought about black holes and time travel? If so, then Descriptive Astronomy, A-001 or A-002 will give you an opportunity to learn the answers to all these questions, plus learn how COD's state of the art, remotely operated 1-meter telescope at the Mary Reagan Observatory works.

Both A-001 and A-002 fulfill the natural science elective and will transfer to the UCs and Cal States. The only difference is A-002 is a (4) unit class that includes a laboratory component, while A-001 is a (3) unit lecture only class. Also, if you need a natural science elective with a lab, A-002 fills that requirement.

In addition to a natural science elective, these courses are also worthwhile for science majors who plan to pursue a career in Physics, Astronomy, Astrophysics or Space Science.

BI 007: Biology of Mammals and
BI 007L: Biology of Mammals, Lab

The characteristics of mammals is briefly covered in Biology (BI 004) and Biology of Organisms (BI 006). Biology of Mammals (BI 007) covers all the major orders of mammals in depth, as well as their anatomy and physiology, ecology, evolution, distribution, domestication, and conservation.

The lecture and lab are designed to fulfill the natural science elective (same as BI 004) and have been accepted for transfer to the UCs and Cal States. This is the only biology course offered in the science department in which the lecture and lab are two separate courses, so that if students need only one or the other, they can be accommodated.

In addition to a natural science elective, these courses can also be taken by science majors who have fulfilled their biology requirements (BI 005 and BI 006) and want to take more biology while waiting to fulfill the rest of their science requirements (chemistry, math, physics, etc.).

Canvas

College of the Desert's online program utilizes the Canvas learning management system software. Online classes are offered over the Internet in a variety of discipline areas, as indicated under the specific course listings in the Schedule of Classes provided each semester. Online courses are as transferable as regularly scheduled classes, have the same prerequisites as traditional face-to-face courses, and uphold identical standards of academic quality.

Online courses generally follow the traditional sixteen week semester, but the coursework is completed asynchronously via email, electronic bulletin boards, and chatrooms. Individual classes may have additional prerequisites as specified in their online syllabi.

Canvas

College of the Desert's online program utilizes the Canvas learning management system software. Online classes are offered over the Internet in a variety of discipline areas, as indicated under the specific course listings in the Schedule of Classes provided each semester. Online courses are as transferable as regularly scheduled classes, have the same prerequisites as traditional face-to-face courses, and uphold identical standards of academic quality.

Online courses generally follow the traditional sixteen week semester, but the coursework is completed asynchronously via email, electronic bulletin boards, and chatrooms. Individual classes may have additional prerequisites as specified in their online syllabi.

What is HyFlex?

HyFlex courses allow you to adapt your education to your lifestyle by using Canvas as a hub for all content and offering at least two ways to participate in class activities on any given day:

- In person on campus
- Live streaming in-class activities at the same days and times via Zoom
- Watching Zoom recordings at your convenience.

Student Computer Literacy and Access

One of the institutional outcomes for all COD students is technological literacy. As such, any class may be web enhanced and might require access to online sites such as Canvas, MyMathLab, MyLab, or the textbook publisher's website for assignments, testing, homework, etc. Internet-ready computers are available in a variety of locations, including the Tutoring and Academic Skills Center (TASC) and Library.

Intercultural Communication COMM 017

COMM 017 focuses on the communication behaviors and values common to all cultures, and on the differences that insulate and divide people of one culture from others. This course leads to a better understanding of traditions, increased appreciation of behavioral variations, and an awareness of more effective methods of communication. Offered fully online.

Emergency Medical Technician

An Emergency Medical Technician (EMT) is an emergency responder trained to provide emergency medical care to the critically ill and injured. Depending on where they work, EMTs may be solely responsible for the treatment and transportation of their patients.

EMT 084 provides students with the medical knowledge and skills to become an EMT. Competencies are assessed regularly by student performance in the classroom, in the hands on skills lab and during the clinical and field internship.

Students successfully completing the course will be eligible to take the National Registry Emergency Medical Technician exam and become a nationally certified EMT.

This course meets the EMT prerequisite for the Basic Firefighter Academy.

Ethnic Studies

Ethnic Studies is the interdisciplinary study of race and racism utilizing intersectional, comparative, relational, and transnational approaches that focus on the histories, experiences, cultures, and struggles of historically minoritized ethno-racial groups in the United States.

The field focuses primarily on Indigenous/Native American studies, Black/African American studies, Latinx/Chicanx studies, and Asian American/Pacific Islander studies, while also engaging in analysis of other racialized ethnic groups in the U.S.

Ethnic Studies also investigates how race and ethnicity intersect with class, gender, ability, and sexuality in order to help students develop a critical understanding of the complex and intersecting historical struggles and movements for social transformation, resistance, and liberation in the U.S. and beyond.

Student Computer Literacy and Access

One of the institutional outcomes for all COD students is technological literacy. As such, any class may be web enhanced and might require access to online sites such as Canvas, MyMathLab, MyLab, or the textbook publisher's website for assignments, testing, homework, etc. Internet-ready computers are available in a variety of locations, including the Tutoring and Academic Skills Center (TASC) and Library.

88 CSFM-GEOG

G 010 : The Earth Sciences and G 001: Physical Geology

The Earth Sciences (G-010) is intended for students with a strong science background. This rigorous, fast-paced course is a survey of astronomy, meteorology, climatology, oceanography, and geology.

Physical Geology (G-001) serves as an introduction to the field for majors and those looking to fulfill their general education requirement. Subject matter for this course includes Earth materials and processes such as minerals, rocks, plate tectonics, earthquakes, and volcanoes.

The lecture and lab for both courses are designed to fulfill the natural science elective and have been accepted for transfer to the UC and CSU systems in addition to meeting the requirements of IGETC.

Due to the demanding course load of The Earth Sciences (G-010), the Physical Geology (G-001) may be a better option unless G-010 is required for certificate or degree completion.

Geology classes have moved to the Liberal Arts Building

Due to construction and a complete remodel of the Science building, Geology classes on the Palm Desert campus will be held in the Liberal Arts building, room 9B.

Move to Smoke Free Campuses

College of the Desert and all of its campuses are now smoke and tobacco-free. At the request of the Associated Students of College of the Desert, the College's Board of Trustees adopted Policy 3570 on July 19, 2018, which bans smoking, vaping and all tobacco products.

This policy applies to all students, faculty and staff and includes all activities occurring on the College's campuses, including the weekend Street Fair.

Anyone who needs help quitting tobacco can call 1-(800) NO-BUTTS, visit www.NoButts.org, or go to Student Health Services to obtain smoking cessation information.

Whether you are a smoker or a non-smoker, College of the Desert knows that the campus community will demonstrate thoughtfulness, consideration and cooperation as we work together to successfully implement this new policy.

Online courses generally follow the traditional sixteen week semester, but the coursework is completed asynchronously via Canvas.

NURS 113

PATIENT HEALTH CARE

Students enrolled in the School of Health Sciences, who are in a clinical program, are subject to special guidelines developed to protect patient safety. A Social Security number is required for clinical placement. A student may be asked to withdraw from the CNA or Nursing program for academic reasons or for other reasons such as drug/alcohol abuse, inappropriate social or emotional behavior, or documented acts of dishonesty. The faculty reserves the right to remove from the clinical area any student who, in the faculty member's professional judgment, places the patient in physical or emotional jeopardy.

MALPRACTICE INSURANCE REQUIREMENT

College policy requires each student enrolled in the health occupation programs, which require patient contact for the development of specific skills, to purchase insurance coverage against liability for malpractice.

PATIENT HEALTH CARE

Students enrolled in the School of Health Sciences, who are in a clinical program, are subject to special guidelines developed to protect patient safety. A Social Security number is required for clinical placement. A student may be asked to withdraw from the CNA or Nursing program for academic reasons or for other reasons such as drug/alcohol abuse, inappropriate social or emotional behavior, or documented acts of dishonesty. The faculty reserves the right to remove from the clinical area any student who, in the faculty member's professional judgment, places the patient in physical or emotional jeopardy.

MALPRACTICE INSURANCE REQUIREMENT

College policy requires each student enrolled in the health occupation programs, which require patient contact for the development of specific skills, to purchase insurance coverage against liability for malpractice.
